

PAE1300181

PVC Electrical Insulation Tape

APPLICATION

It is applying to all kinds of motor, electronic parts of the insulation fixed use, such as electric cable winding, transformer, power distribution equipment, automobile circuit, electrical engineering, household electrical, motor, capacitor and regulators.

TEST CONDUCTED:

Part No.	PEI13FR	PEI15FR	PEI13	PEI15
Thickness	0.13mm	0.15mm	0.13mm	0.15mm
Width	19mm – 1250mm			
Tensile Strength	20N/cm	24N/cm	20N/cm	24N/cm
Elongation	180%	200%	180%	200%
Surface	Glossy/Matte			
180° Peel Adhesion	1.6N/cm			
Temperature	80°C (170°F)			
Voltage	600V			
Flame Retarding Grade	Grade 1		Non flame retardant
